# JClipShare With License Key Download

**JClipShare Crack License Keygen Latest**

JClipShare is an easy to use,  
simple piece of software  
designed to enable you to

---

transfer in an easy and speedy way, your clipboard to other PC through the network. The most characteristic feature of this software is its enormous possibility to scan/backup any kind of clipboards, spreadsheets, text files, .... all together possible, especially through Google drive.

JClipShare - works more faster than other software of the same category (mainly because of its intuitive interface). And because it doesn't require any complex

---

installations nor registry editing to get it work with all of the office or internet software and applications.

Main Features: JClipShare is a completely serverless application, it doesn't need any kind of installation or registry editing, in fact you can work with JClipShare from any number of computers/PC, netbooks, laptops or tablets/slates (desktop/tablet/phone).. working all of them as "local servers".. all directly

---

connected to the same network, without the need of any kind of passwords (let alone admin) for any kind of connection and/or computer access. Once the entire JClipShare network is connected, working in the same network and able to work with its shared clipboard and/or other data files.. all clients (PC) connected to the network, automatically detects new copies/traces (clipboards and files) available on the main server and starts

---

downloading/backup in any of the connected clients.

Because of its unique functionality, JClipShare is able to work even on very mobile devices (for example on Android phones, tablets, netbooks and tablets), so that its user can transfer virtually everything (text, images, sounds, videos, and etc) within seconds. JClipShare has a unique and fascinating scanning function, in fact if you copy/trace a document and paste it on the JClipShare

---

server, you'll find in an instant a list of all the available available documents (clipboards or data files) on the server.. from where you can start browsing and selecting every available copy/trace from (from a single, multiple, single or multiple folders, to a single, multiple, single or multiple files/clipboards). You can select a single, multiple, single or multiple folders (including subfolders) to be listed on the main screen, and you can

---

easily distinguish and select  
among the available  
copies/traces and choose only  
the wanted

### JClipShare

JClipShare is an easy to use,  
simple piece of software  
designed to enable you to  
transfer in an easy and speedy  
way, your clipboard to other  
PC through the network. It can  
be used both locally and over  
a network. ...NOTICE: Please
