MyVistaMyPC is a free utility to allow remote access to, and management of, your PC in a network or over the internet. It has been designed to be a user friendly and intuitive interface for performing the most basic and frequent tasks such as maintenance, system information, remote system administration and backup of your data. We provide the ultimate, user friendly remote access and management solution for your PC. So if you are interested in our product, you will need to order a licence. If you have any questions or problems in using our software, our customer service team are happy to help. *If you already have a MyVistaMyPC licence, you do not need to order a new licence. Simply close out of the trial and continue using it.You can use MyVistaMyPC on up to 10 computers at a time. Checks out your PC's hardware including your CPU, Memory, Hard Drive, CD/DVD Drives, Sound Card, and even what kind of Video Card you have (we can even change video drivers). Allows you to run an anti-malware scan and download any updates for your PC. Download NetSupport Manager (Desktop version) – for use on up to 10 PCs for 30 days. Our 30-day trial is completely FREE. That means no credit card details .MyVistaMyPC is a free utility to allow remote access to, and management of, your PC in a network or over the internet.
